

# More majors. More opportunities. Now just \$15K/year.

Southern New Hampshire University's mission has always been to make college more accessible. That's why we've lowered campus tuition to just \$15K/year.

In our new \$15K/year undergraduate tuition option, you can still discover more than 70 career-focused majors in a familiar academic setting, with face-to-face instruction set mostly in a classroom. You'll also have the flexibility to explore electives, and may choose to incorporate internships, project-based courses, service learning, study abroad and other experiential elements into your SNHU experience.

You can also take advantage of:

- State-of-the-art facilities
- Accessible and transparent admission process (no SAT required)
- Merit scholarships for international students
- Division II sports
- Brand new on-campus housing options
- And 70+ student clubs and organizations

**Enjoy the whole campus experience, at half the cost.**
